

AMAZINGVERDE™ MB-02 ODOR CONTROL SYSTEM

“All Amazingverde™ biologic products accelerate the biological degradation of organic wastes and rapidly eliminate most organic odors. Our products are non-toxic, non-flammable and 100 percent biodegradable.”

AMAZINGVERDE™ MB-02 Biologic Microbial Tonics is a specially formulated product to reduce build-up of matter in organic waste such as wastewater treatment facilities, compost farm, wet market, hogger, septic waste like fecal waste etc. **AMAZINGVERDE™ MB-02 Biologic Microbial Tonics** is an exclusive liquid concentrate of biocatalysts that solubilize and/or digest grease and other organic contaminants that clog pipes and cause expensive pump-outs.

Regular use of **AMAZINGVERDE™ MB-02 Biologic Microbial Tonics** maintains wastewater treatment facilities, compost farm, wet market, hogger, septic waste systems free odorless. Organic Waste Decompose System is compatible with all municipal waste treatment systems. It stimulates beneficial microorganism activity contributing to the reduction of suspended solids and biological oxygen demand.

AMAZINGVERDE™ MB-02 Biologic Microbial Tonics is non-toxic, hypoallergenic, non-corrosive, non-flammable and can be used safely in poorly ventilated areas. It will not harm humans, animals, marine life, the environment, or any material not affected by plain water. **AMAZINGVERDE™ MB-02** has been accepted by the U.S. Department of Agriculture for use in sewage and/or drain lines of establishments operating under Federal Inspection Programs.
